**For:** "LAMPHEAD FOR A RAPID THERMAL PROCESSING CHAMBER"

Commissioner for Patents  
Alexandria, VA 22313-1450

**COMMENTS ON STATEMENT OF REASONS FOR ALLOWANCE**

Sir:

The Notice of Allowability contained a statement of reasons for allowability for "A lamphead for use in semiconductor processing comprises a monolithic member having a plurality of reflector cavities being formed therein."

While this description generally follows allowed claim 1, other allowed claims do not contain some of the stated limitation. For example, claim 7 does not require that the lamphead be monolithic and claims 15 and 19 do not require that the apparatus process a semiconductor substrate.
